

Revenge on ho's

Whatever bitches are posting on social media, stories posts and such... It would be hysterical if someone send their parents this on their Facebook (with a fake profile). Not only this is a righteous way to get revenge, her parents might pay attention to her whore behavior and perhaps they'll do something about it.

- Make a fake profile (or catfish). Gather material and send it to her parents

Dox her family address, place of living, who is she, what she likes... Dox everything about her and post it on some pedo forums where they'll message her like crazy and do nasty shit. This is righteous way to get revenge too, since all her social media informations are available for free and everyone has access to them.
