ŠTO JE CRNA PILULA?

Genetski determinizam?

Crna pilula je svako nihilističko vjerovanje često u prisutnosti djelomičnog znanja često popraćeno depresivnim mislima

U ovome slučaju parcijalno proizlazi iz genetskog determinizma, vjerovanja da naši geni u potpunosti određuju tok našega života

Epigenetika – područje genetike koja proučava promjene genetskog materijala zbog vanjskih čimbenika

Razlike

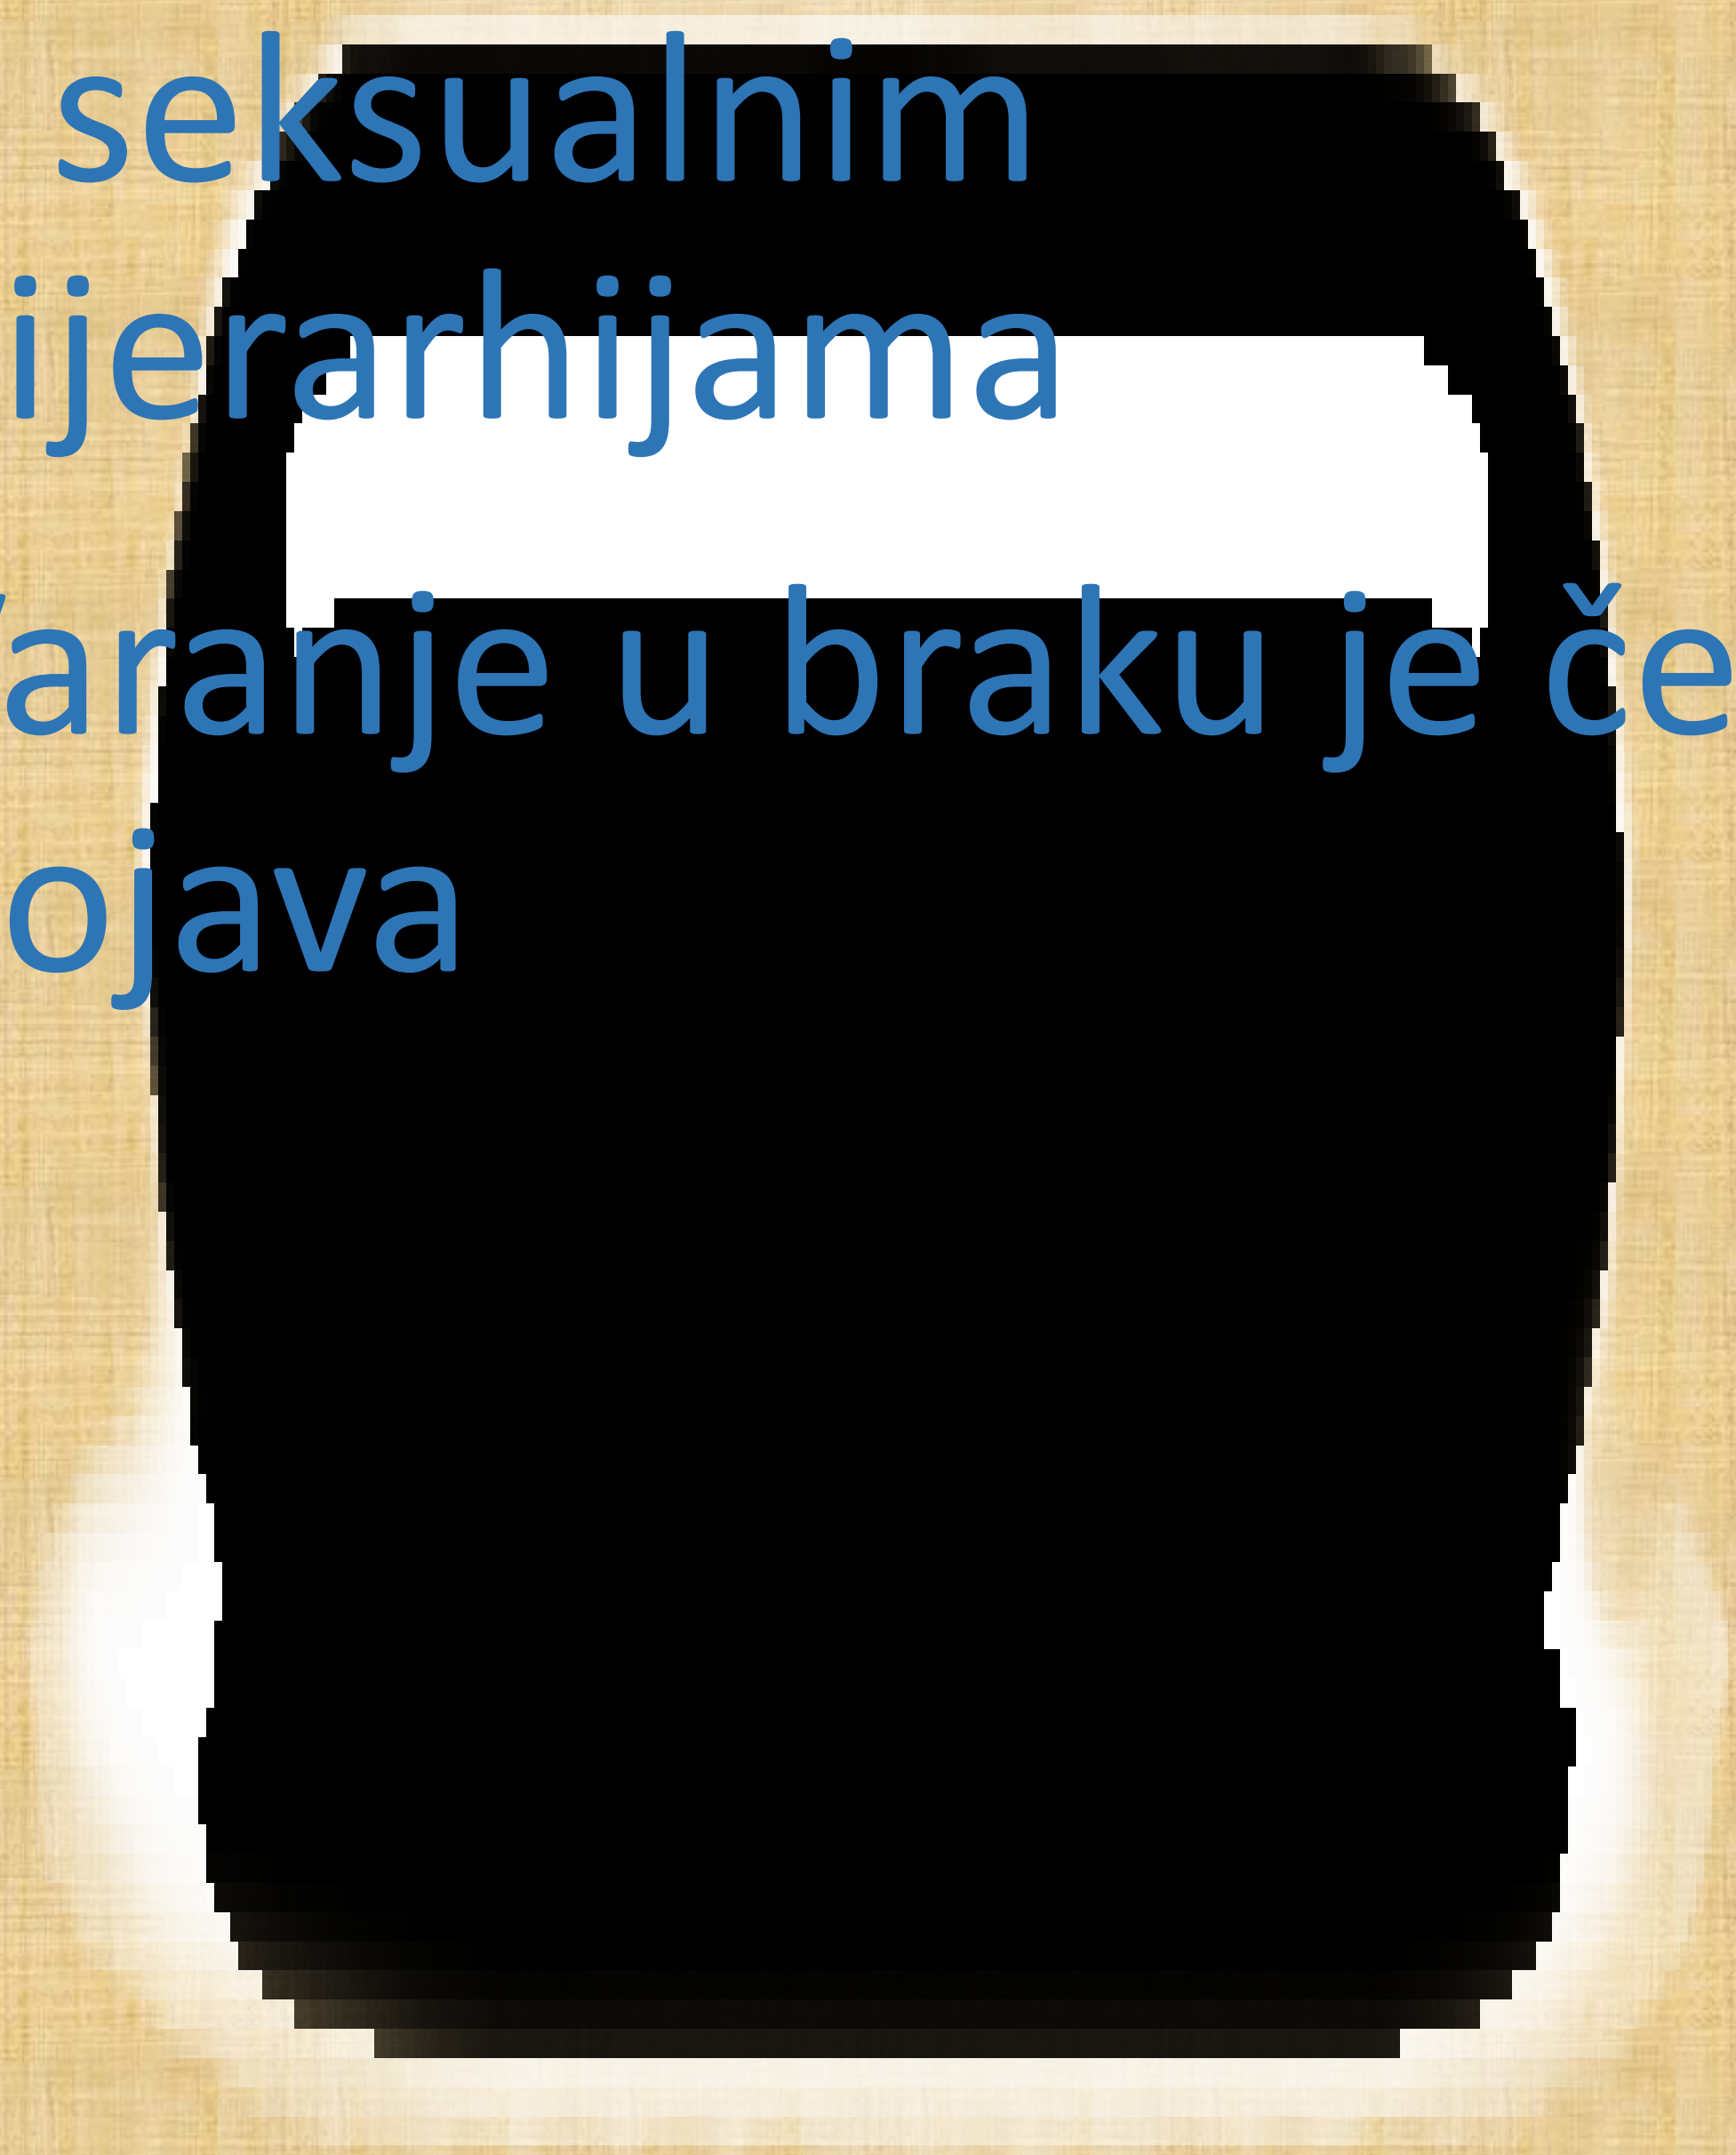

PLAVA

- Izgled ne determinira naš životni uspjeh
- Izgled ne determinira naš uspjeh na seksualnom tržištu
- Varanje u braku je rijetkost

CRNA

- Izgled je glavni predikament našeg uspjeha
- Izgled je glavni čimbenik u seksualnim hijerarhijama
- Varanje u braku je češća pojava

Izgled ili osobnost?

- People broadly agree on who is good looking or not, and it affects every aspect of life
- -*Common maxims about beauty suggest that attractiveness is not important in life.*
- -*In contrast, both fitness-related evolutionary theory and socialization theory suggest that attractiveness influences development and interaction.*

Aspiring model. Watch out for me in GQ in a couple years ;)

You should know I've had trouble with the law my whole life. Convicted three times for rape of a child (R.O.A.C) and once for sexual activity with a child but tbf she turned 16 like a week later so it was super unfair but w/e.

I'm on tinder cause maybe if I fuck some of you sluts I'll stop wanting to be with kids (unlikely lmao, they're way tighter than your beef curtain cunts). I hope you can therefore forgive me for my past crimes.

Hey, every criminal has the chance to be forgiven, but then again there's something very attractive about a bad boy 😏

I think I'd rather be bad than forgiven 😏

The question is, how bad does this bad boy get. And does this bad boy need a naughty girl to keep him bad 😏
